PROFILE

Hello, I am Vivek Solanki. I am seeking a challenging **internship/placement** opportunity to further develop my skills and gain valuable experience in **Cloud-Based Applications**. With a strong academic background and a passion for learning, I am eager to contribute to a dynamic team and make a positive impact in a professional setting. Currently, I am working as an **Intern at GROWNITED PRIVATE LIMITED**, where I am gaining hands-on experience and enhancing my technical expertise.

CURRENT PROJECT

- **SKILL Exchange** 2025 - Current
Technology Stack: MongoDB, Express.js, React.js, Node.js (MERN)
 - Developed a **Skill Exchange Platform** that allows users to offer and request skills in a peer-to-peer system. Users can create profiles, list their skills, connect with others, and exchange knowledge efficiently.

PROJECTS

- **Online Book Store** 2023
 - Developed a fully functional online bookstore with features such as book browsing, user authentication, and secure payment processing.
 - Designed and organized project files, spreadsheets, and reports to maintain structured documentation.
 - Identified potential system inefficiencies and implemented solutions to enhance user experience and operational workflow.
 - Researched and integrated new technologies to optimize performance and streamline business processes.
- **Trading System** 2022
 - Designed and implemented an online trading system, enabling users to buy, sell, and manage financial assets securely.
 - Developed a structured data management system to organize files, spreadsheets, and reports efficiently.
 - Conducted in-depth analysis to identify potential risks and optimized system performance for seamless transactions.
 - Researched emerging financial technologies and security measures to enhance system reliability.
